A NEW YEAR MESSAGE CAN BE DONE !

Last years message ended on the above caption *CAN BE DONE!* Sixty years of accomplishment, based on the original purpose for which the club was organized, has been realized. The future of the club looks brighter than ever.

It is not often that a purely social activity such as ours, prospers and flourishes for over half a century. This reputation for sustained hospitality and friendship is due, to the members, in maintaining a progressive prosperity and embracing a wholesome tradition which always included the family life as the only unit to be considered.

This thought must never change and must be paramount at all times.

Let us forget our differences and get behind our officers and commitments to make this the largest, best and most prosperous ANNIVERSARY the club has ever had.
